INNOVATION MONTH: Your Invitation to Create & Design an "Online" Logo

We are helping to promote **June as innovation month here in New England**, and want you to be involved. Design a logo or icon that people can use online (websites, blogs, FaceBook, etc) and they'll be added to the main <http://www.innoeco.com/> website for all to see (and use).

The idea of the initiative is to collect on one site all of the major innovation-related events happening in June, and encourage people to take part in one or all of them if they believe (as we do) that innovation and creativity and entrepreneurship are going to help our economy rebound from its funk.

So if you're a designer and are looking to contribute, looking to get noticed, or just want to flex your creative muscle, here are the details:

- The graphic can be any size.
- You can use any font.
- You can use any image (a digital lobster? a colorful map of the region? an image of the telephone, invented here ... or the @ sign, first used here?)
- The graphic should include the text "June 2009" and "Innovation Month" and "New England."
- **Deadline to submit: 29-May**
- Send to: jessica@mitx.org
